WHAT IS A FUNCTIONAL RECORDS RETENTION SCHEDULE?

The *Records Retention Schedule for Parishes & Faith Communities* (hereafter called the *Schedule*) is a document that lists all of the records series produced throughout the diocese. It explains how long each records series must be kept and describes what to do with the records once their retention period is over. It is organized by business or pastoral function instead of by *hierarchy* or *department* as has been done in the past. This new method more accurately reflects the functions and mission of parishes regardless of position, department, or office.

A functional records retention schedule allows a great deal of flexibility for the inevitable changes that occur in organizations. The major functions will remain relatively stable over time despite changing office responsibilities.

Another benefit of the functional approach to scheduling records series is that all records series are centralized in one document. Other institutions often require users to consult individual schedules in addition to a general schedule (containing institutionally common records series).

Offices create many common record types (e.g., subject files, meeting records, training files, event records, etc.). By grouping those common records types together in one document, this *Schedule* facilitates efficient staff use and also improves the management and continued maintenance of records.

HOW DO I USE THIS SCHEDULE?

The *Schedule* is organized by function, **not** by department or record format. By looking at the table of contents, you can place your records first within one of the 16 main functions. Think how the record you want to find is used. Does it have to do with an Asset? Does it support Administration? Once you've isolated the main function to which your records relate, refer to the subdivisions called "Activities" within each function to further refine your search. You can also refer to the [index](#) to help you find the correct records series.

Next, determine whether you have an "official record" or an information copy. Do others in your office retain the same record? Are you the main recipient of an email or have you been carbon copied (cc'd)? Talk to your supervisor or workgroup to determine if your copy is the official record and not just an informational copy. Informational copies can be deleted when they are no longer needed for business or an action has been taken. For further assistance on using the schedule, please contact [Archives & Records Management](#).

EMAIL RETENTION

Email messages are records which may contain evidence of parish actions, decisions, approvals, or transactions. Email does **NOT** have a blanket retention period. Like all records, they are scheduled according to the business or pastoral function to which they relate and not by their format. Many of the records series listed in this schedule are likely to contain email. The *content* of the email determines whether and how long a particular email message should be retained. For example, if an email message is related to a project, then refer to the retention period for projects. Please refer to the [Transitory Records Guidelines](#) for information on what type of material can be safely destroyed when obsolete or superseded. Please contact [Archives & Records Management](#) for more information.

LEGAL HOLDS: PRESERVING RECORDS DURING LITIGATION OR INVESTIGATIONS

When litigation, an audit, or investigation occurs or is reasonably anticipated, a written notice (referred to as a “Litigation Hold Notice” or “Legal Hold”) will be issued to appropriate staff. All records, whether official records, information copies, working documents, or transitory records, potentially relevant to the matter must be retained until the Litigation Hold is terminated. The effect of this notice is to freeze or suspend the destruction or alteration of records, electronically stored information, and other materials identified in the notice.

Records relevant to the matter may **not** be destroyed – even if the retention period in this retention schedule has expired or expires during the Litigation Hold – until the action is resolved and a notice terminating the Hold has been issued. There are serious legal consequences for individuals that destroy or alter records under a Litigation Hold or know of a pending issue and do not halt destruction.

SUBSTANTIVE & TRANSITORY RECORDS GUIDELINES

TRANSITORY RECORDS

Transitory records are routine documents of temporary and short-term value in any format that are made or received in the course of diocesan business or pastoral work. Transitory records are not included in the Records Retention Schedule.

- Transitory records can be destroyed once you have used them or acted on them because they don't contain information that will be needed in the future.
- Transitory records do **not**
 - set policy,
 - establish guidelines or procedures,
 - identify the person(s) who participated in a business activity or had knowledge of an event, and/or
 - make or document decisions.

Types of Transitory Records

1. Transitory Correspondence

- Memos and postings that do **not** relate to the functional responsibility of the department (e.g., announcements of meetings, reservations, confirmations, itineraries, acknowledgements, form-letter thank you notes, etc.)
- Notes and memos of short-term interest involved in answering routine requests for information or publications, in requesting or transmitting routine data to other offices, in acknowledging materials/information received, or in scheduling meetings, reservations, conferences, etc.
- Letters of transmittal that do not add information to the transmitted materials
- Routine requests for information that require no administrative action, policy decision, special compilation or research

2. Duplicates

- Extra copies of correspondence, forms, bulletins, statistics, reports, hardcopy mailing lists, etc. used only for reference or informational distribution

RECORDS RETENTION SCHEDULE FOR PARISHES & FAITH COMMUNITIES

- Duplicate/extra copies of records created and circulated for reference purposes, convenience, reading copies or follow-up; branch-wide memos; "all staff" communications; notices of special events; and routine administration issues
- Copies of electronic publications produced outside the office and no longer needed
- Electronic documents which are used to produce a hard copy version which is maintained in the hard copy files
- Email CCs (carbon copies) and BCCs (blind carbon copies) where you have been copied for informational purposes only and are not expected to take action yourself

3. Personal Documents

- Email messages and documents used for casual or personal communications
- To-do lists

4. Drafts and Working Materials

- Preliminary drafts and annotated drafts where annotations become a part of a subsequent version and are not evidence of decisions related to the evolution of the final document
- Rough notes, preliminary or informal drafts used in the preparation of correspondence, reports, memoranda, statistics, or other records that are of no value in documenting data collection or in showing how policies or programs were developed or implemented

5. Other

- Document errors: incorrect versions of documents, forms or reports that had to be regenerated in order to correct errors in typing, data entry, spelling, grammar, or format
- Information or forms which are used to compile or update another record and which will be obsolete once the update or data entry is validated and backup procedures are completed. For example: parishioner registrations
- Informational resources about outside organizations, individuals, or subjects once these resources have served their purpose.
- Letters of transmittal which do not add any information to the transmitted materials
- Copies of financial documents already maintained by Finance and Administration
- Miscellaneous notices or memoranda which do not relate to the functioning of the agency (notice of community affairs, employee meetings, holidays, etc.)
- Preliminary drafts, reports, work sheets, spreadsheets, presentations, and informal notes which do not represent basic steps in the preparation of record documents

RECORDS RETENTION SCHEDULE FOR PARISHES & FAITH COMMUNITIES

SUBSTANTIVE RECORDS

Substantive records are documents that are made or received in the normal course of parish business or pastoral work. These records, however, are important to the ongoing functioning of the parish. They tell us why things were done, why decisions were made, how money was spent, etc. Substantive records are included in the records retention schedule.

Substantive records are documents in any format that:

- relate to the key activities undertaken to accomplish a mission or mandate,
- give evidence of decisions and policies,
- prove that *significant* transactions occurred (or did not occur),
- provide information needed for future decision/policy making, and
- support programs and projects.

Examples of substantive include:

- Official copies of agendas and meeting minutes of management teams, committees, councils, and administrative groups
- Correspondence related to official business communications at the executive level, to and from others inside and outside the organization
- Documentation of an office or department's decisions and operations
- Final reports or recommendations of parish agencies
- Grant proposals, approvals, and reports
- Legal, financial, and property records
- Official copies of policy, program, and procedure directives, such as manuals, bulletins, orders, rules, directives, or policy statements
- Official copies of press releases
- Transmittal emails containing no substantive information but which are sent to provide attachments that fall into one of the categories above

GUIDELINES FOR MANAGING THE ELECTRONIC RECORDS OF SEPARATED EMPLOYEES

1. General

- 1.1 The Archdiocese of Seattle defines *records* as documents in any format that are made or received in the course of business or pastoral affairs and saved for future reference, action, or evidence. Aside from more familiar paper-based documents, records include: word processing files, databases, spreadsheets, instant messages and chats, websites, digital images, video files, websites, and sound recordings. Please consult [Archives & Records Management](#) if you would like more information.
- 1.2 Electronic records storage sources that are subject to these guidelines include:
- Desktop, laptop, and tablet computers,
 - Servers,
 - Cell/smart phones,
 - Instant messaging,
 - PDAs (personal digital assistant),
 - Loose media (CDs, zip drives, etc.),
 - Voicemail recorders,
 - Printers, and
 - Data backups.

2. Voluntarily Separated Employees

- 2.1 The computer hard drives and other digital assets of *voluntarily* separated employees (when there is no indication to parish administrators that the employee is dissatisfied, hurt, or angry) can be repurposed or destroyed once records contained on them have been reviewed with records retention schedules, and materials with ongoing retention requirements or “PARISH ARCHIVES” designation have been transferred (migrated) to a network server or external storage device.

3. Involuntary or Contentious Resignations

- 3.1 Any time there is an involuntary separation or contentious resignation from a position at a parish, the institution should be prepared for the possibility of litigation. When this occurs, all electronic records on the employee’s computer hard drives (PC and laptop), external storage devices, optical media, and smart phones should be centralized and preserved until any anticipated or impending litigation has been resolved or the statute of limitations has expired. [Hardcopy records should also be centralized and preserved].

RECORDS RETENTION SCHEDULE FOR PARISHES & FAITH COMMUNITIES

- 3.2 To ensure the admissibility of electronic records in legal proceedings, prevent any deletions or changes to them by disabling the employee's access to all digital technologies either before or simultaneously with their final meeting with supervisors or administrators. It is also important that no other staff open these files, as doing so can change system generated metadata used for authentication in litigation. Instead, make a copy of the file(s) or folder(s) in a separate location, and provide access to the copy, **not** the original. Laptops and other technology assets should be returned to the employee's supervisor before or immediately after the severance meeting.
- 3.3 In addition to preserving the electronic records of the subject of the separation or resignation, those of the subject's supervisors and other personnel determined by PARISH administration to be key to any possible future litigation should be preserved in accordance with this policy. Contact the [Chancellor](#) for advice in determining which personnel and the extent of information that should be included in the preservation tasks. For guidance on selecting acceptable methods of preserving electronic data and selecting external storage devices for preservation please contact [Archives & Records Management](#).
- 3.4 All data on mobile smart phones issued by a parish should also be retained on a backed-up server or external storage device after an employee's involuntary separation. All email communications should be retained, including, but not limited to: the inbox, outbox, sent mail, trash, and any subfolders and email communications therein.
- 3.5 Before wiping, repurposing, or disposing of digital technologies, the data contained on them should be migrated to a secure network server or acceptable external storage device. Please contact the [Director of Archives & Records Management](#) to schedule this. In highly contentious matters a mirror image should be produced through a specific method of copying that replicates bit for bit, sector for sector, all allocated and unallocated space, including slack space, on a computer hard drive. This will contain all the information in the computer, including embedded, residual, and deleted data. This requires specialized hardware and software and should not be attempted by parish staff. If possible, contact [Archives & Records Management](#) to schedule this *before* the severance meeting so that a plan can be in place to affect the collection and terminate the employee's access to the data concurrent or immediately after the severance meeting.
- 3.6 A hold should also be placed on any routine records destruction for the employee's email account. Additionally, email communications produced after the separation by parties identified by the Chancellor's Office and Legal Counsel to be "key" to any anticipation litigation should also be preserved with a hold placed on those individuals' email account's destruction schedule. Contact [Archives & Records Management](#) to establish a protocol and method for downloading and preserving various email sources. [Staff should *never* use personal email accounts for parish business, as doing so may cause the entire account to be subject to discovery during litigation.]

RECORDS RETENTION SCHEDULE FOR PARISHES & FAITH COMMUNITIES

- 3.7 It is advisable to conduct an annual audit of software, email services, etc. to prepare for quick implementation of legal holds. Include all departments and entities in the audit. This is important to ensure accurate preservation and to verify that the data can be accessed in the future. For example, legacy software might also need to be preserved, so that data created using that software can be accessed. Additionally, certain server configurations are not easily reconstructed if the server is turned off.
- 3.8 Add the following to a departing employee questionnaire or interview:
- Request for a list of electronic assets and location of all electronic records, including email.
 - Request for login IDs and passwords for Parish systems and applications.
 - Confirmation that the employee does not have any confidential, proprietary, or business-related records (paper or electronic) in his/her possession.
 - Confirmation that the employee did not use personal email services to conduct business on behalf of the Archdiocese of Seattle. If they did, they should be instructed not to access that information until a plan is in place to preserve it and remove it from their possession.
 - For highly contentious matters, contact the [Chancellor](#) or [Director of Archives & Records Management](#) for a “duty to preserve” notice to prepared for the employee at the final meeting.

4. Data Storage, Migration, and Disposal (Involuntary and Voluntary Separations)

4.1 Migration:

- For assistance in migrating electronic records to other media please contact the [Archives & Records Management](#).

4.2 Storage:

- Electronic records transferred to network servers or external storage devices for the purpose of litigation preservation should be included in the institution’s backup processes.
- If stored on a network server, access to these materials should be restricted to the pastor or PAA. If stored on an external storage device, it should be kept in a locked place with access limited to the pastor or PAA. This is to preserve confidentiality and to safeguard against spoliation of evidence in legal proceedings.

4.3 Disposal:

- Contact the [Chancellor](#) or the [Director of Archives & Records Management](#) to determine when it is safe to destroy any materials, and then securely delete data on the computer hard drive. Secure deletion is any method which ensures that deleted data cannot be recovered using system functions or commercially available programs. Examples of computer secure deletion include:

RECORDS RETENTION SCHEDULE FOR PARISHES & FAITH COMMUNITIES

- Using software programs designed for secure data deletion (There are free and low-cost programs of this type available on the internet.)
 - Reformatting the hard drive (Do not use quick or high-level reformatting, which does not actually delete the data itself)
 - Physically destroying the hard drive
- After transferring the data on mobile devices to a network server or external storage device, erase the data from the device by performing a hardware reset to factory settings, and subsequently verifying that the data has been erased by visual inspection.

GLOSSARY

Archives – The place where permanent inactive records are stored. Archival records in the Archives of the Archdiocese of Seattle are non-circulating, meaning that once they are officially transferred to the archives, staff may view the records, but not remove or check them out.

Diocesan Record – The Archdiocese of Seattle defines its *records* as any documents (regardless of format) that are made or received in the course of business or pastoral affairs and saved for future reference, action, or evidence. Aside from more familiar paper-based documents, records can be word processing documents, databases, spreadsheets, instant messages and chats, websites, digital images, video files, websites, and sound recordings. Please consult [Archives & Records Management](#) if you would like more information.

Disposition – Actions taken when records are no longer legally or administratively required to be retained. The dispositions on the *Records Retention Schedule for Parishes*

SHRED: Records contain sensitive information such as names and addresses, health information, and financial or payment information (such as checks or credit cards). Please dispose of records designated as SHRED in a secured shredding receptacle.

DELETE: Records contain electronic information that should be deleted from drives, desktops, or databases once they reach the end of their retention period.

RECYCLE: Records do **not** contain sensitive information and can be discarded in a paper recycling bin once they reach the end of their retention period.

PARISH ARCHIVES: Records have ongoing legal, fiscal, evidential, or historical value and should be retained in the Parish Archives. For more information about establishing a Parish Archives, contact [Archives & Records Management](#).

Legal Holds – See [LEGAL HOLDS: PRESERVING RECORDS DURING LITIGATION OR INVESTIGATIONS](#) p. 9.

RECORDS RETENTION SCHEDULE FOR PARISHES & FAITH COMMUNITIES

Obsolete or Superseded – This is a *schedule* designation which means that it is up to the creator, keeper, or office of the record to decide when a particular record ceases to be useful or relevant. This period will inevitably vary from person to person and from office to office. It is the responsibility of the owner of the records or department to review these records annually to determine their usefulness.

Records Retention Schedule – A document that states how long particular records must be kept based on administrative and/or pastoral concerns as well as statutes, regulatory requirements, and best practices. It describes the records series number; records series title/description; and states the disposition (or method of destruction) of a particular records series. Some are deemed archival and must be retained in the archives permanently while others can be shredded, recycled, or deleted once they've reached the end of their retention period. **Before destroying any records, please consult [Archives & Records Management](#).**

Retention Period – The length of time needed to retain a certain record series. Based on the type of record, this time period can be as short as its *obsolescence* or as long as *separation of employee + 60 years*. For most retention periods, there are two parts: a cut-off (trigger) and the time period. A cut-off or trigger is the action portion of the period. It can be the *end of calendar year*, *end of fiscal year*, when *obsolete or superseded*, *life of equipment*, *resolution of case*, etc. It tells you when to start “counting.” The date portion is how long you should count after the action is completed. If a particular record's retention period is: *calendar year + 6 years*, then you would wait out the current calendar year and then wait another six years on top of that before disposing of the record.

Series Number – This column on the *records retention schedule* is the unique identifier for each record series. It is also the number needed when filling out Archives & Records Management forms such as the transfer form and destruction form.

Substantive Records – See [SUBSTANTIVE & TRANSITORY RECORDS GUIDELINES](#) p. 10.

Transitory Records – See [SUBSTANTIVE & TRANSITORY RECORDS GUIDELINES](#) p. 10.

APPENDIX A

LEGAL CITATIONS & REFERENCES DISCLAIMER

Extensive research has been done before assigning retention periods to diocesan records series in order to assure compliance with government regulations and best business practices. CCAS has used the following statutes and/or acts as resources in creating this retention policy, even if the provisions of those statutes and acts do not apply.

- **29 C.F.R. § 1607.4 (RET); 29 C.F.R. § 1602.13 (NS)** – Records as to racial or ethnic identity of employees. Employers may acquire the information necessary for completion of items 5 and 6 of Report EEO-1 either by visual surveys of the work force, or at their option, by the maintenance of post-employment records as to the identity of employees where the same is permitted by State law. In the latter case, however, the Commission recommends the maintenance of a permanent record as to the racial or ethnic identity of an individual for purpose of completing the report form only where the employer keeps such records separately from the employee's basic personnel form or other records available to those responsible for personnel decisions, e.g., as part of an automatic data processing system in the payroll department.
- **29 C.F.R. § 1620.32 (2 years)** – Employer subject to The Equal Pay Act must maintain records to the payment of wages, wage rates, job evaluations, job descriptions, merit systems, seniority systems, and description of practices or matter explaining basis for wage differential between employees of opposite sex.
- **29 C.F.R. § 1904.33 and § 1904.44**
- **ADEA 29 C.F.R. § 1627.3(b)(1) (CR+01)** – Job applications, promotions, demotions, test papers, transfer records; *Title VII of the Civil Rights Act §790(c)*; 29 C.F.R. § 1602.14.
- **Civil Rights Act of 1964 (Title VII)** 29 C.F.R. § 1602.7 (NS) – Copy of most recent EEO-1 report filed for each reporting unit must be retained at each such unit; 29 C.F.R. § 1607.4 (RET); 29 C.F.R. § 1602.13 (NS) – Records as to racial or ethnic identity of employees. Employers may acquire the information necessary for completion of items 5 and 6 of Report EEO-1 either by visual surveys of the work force, or at their option, by the maintenance of post-employment records as to the identity of employees where the same is permitted by State law. In the latter case, however, the Commission recommends the maintenance of a permanent record as to the racial or ethnic identity of an individual for purpose of completing the report form only where the employer keeps such records separately from the employee's basic personnel form or other records available to those responsible for personnel decisions, e.g., as part of an automatic data processing system in the payroll department.
- **FMLA 29 C.F.R. § 825.500(b) (CR + 3)** – Documents describing employee benefits or employer policies/practices concerning taking paid/unpaid leave.
- **Immigration and Nationality Act** 8 U.S.C.A. § 1342a; 8 C.F.R. § 274a.2(b)(2)(A), (B), (c)2 (3 years after hire date or one year after termination; whichever is later).
- **RCW 4.16.080 (2)** Limitation of action for EEO discrimination complaints is 3 years.
The ADA, Rehabilitation Act, *Title VII of the Civil Rights Act*, and ADEA require employers to keep all resumes and job applications on file for one year. Because the ADEA further stipulates a two-year retention period for paperwork for individuals over the age of 40 (something that may be difficult to determine and is, of course, illegal to ask), retain all resumes and applications 2 years.

APPENDIX B

PERSONNEL FILES (EMPLOYEES)

The following information is located on the Human Resources page of the Archdiocese of Seattle's [website](#):

Personnel files should contain:

- Safe Environment Program Church Personnel Agreement
- CICS background check, completed within the last 3 years
- HR Policies Agreement Form
- Employee emergency contact information
- Documentation of the current fiscal year employee pay rate (authorized, amount, effective date, reason)
- Documentation of current Safe Environment Training

For regular employees and temporary employees on benefits, the file is also to contain:

- Letter of Employment Agreement
- Job description, signed by the employee and supervisor
- Performance evaluation completed within the last year

Form I-9 Employment Eligibility forms should not be filed in employee files, but rather in a separate binder or file.
