

Pushpay/ParishStaq Update

Update on Pushpay Purchase and Sale

Pushpay, the company that owns ParishStaq, has received a purchase offer from BGH Capital and Sixth Street Partners. Both are private equity firms that are current stockholders in Pushpay. The sale is tentatively scheduled to close in the first quarter of 2023. Our assessment is that this is generally good news, a commitment of current shareholders to increase their commitment to the Pushpay mission.

Further evidence of Pushpay's commitment to the Catholic market has been evident in the software development and steady progress on the product roadmap. We have also witnessed a continued expansion of Pushpay's Catholic implementation team.

Based on assurances from Pushpay representatives that the intent of the new owners is continued growth, which would be supportive of our interests, we feel confident that the implementation will proceed as scheduled. In addition, we have several clauses in the contract to protect ourselves, should there be any issues after the sale.

Who's Who?

Archdiocese Implementation Wave Team Lead:

Archdiocesan team member who will be supporting your parish community throughout the implementation process. They will be coordinating with all parishes in your wave and be the initial point of communication between your parish and the ParishStaq team.

Archdiocese Data Migration Team: Archdiocesan team members who will be working with you to migrate your data. They will be coordinating with all parishes in concurrent waves. Please be responsive to their requests for uploads and complete any updates they may ask you to do.

ParishStaq Implementation Team: Pushpay Staff guiding and coaching the Archdiocese and all parish communities throughout the entire Implementation process.

ParishStaq Coaching Team: Pushpay Staff guiding and coaching your wave and parish community through the phases of your implementation. You will be meeting your Coaching Team prior to the start of your wave.

ParishStaq Success Manager: Pushpay Staff to support your parish community post-implementation.
