

ParishStaq Implementation Phase is Complete

The Implementation Phase of ParishStaq began with our pilots in July of 2022 and is now complete. We have loaded over 500,000 member profiles, representing over 200,000 households.

From Implementation to Stabilization and Optimization

Next up, we turn our attention to efforts focused on Stabilization and Optimization of these new tools. It is essential that all our sites are batch posting in the Giving Portal. All sites were completely out of active use of their legacy software, as of February 15th and are now posting all donations into ParishStaq, for 2024. All quarterly statements and EOY Giving statements will be produced from the new system.

All sites should be entering their Sacraments in ParishStaq, in addition to the main source Registries. All Sacraments for the 2024 calendar year should be represented in the ChMS system. This will allow us to rollup for the Parish Annual Report for the 24-25 fiscal year.

As we move out of implementation, it is important to continue to take advantage of all the learning resources available. We've highlighted some key resources below:

Our Parishioner Engagement Weebly Site:
