

*Stewardship of Talent and Treasure
Campaigns within ParishStaq Training*

Wednesday, **October 4, at 11:00 AM**
Zoom link

For parishes in the earlier migration waves that are 100% out of PDS, we will have instructions for how to run the Talent and/or Treasure Campaigns from ParishStaq.

Monthly Support Meeting

Join us for the monthly support meeting on Wednesday, **October 11 at noon**. A special guest, Edgar Cariño, Pushpay Customer Success Manager, will join us for a meet and greet. There will be time for Q&A.

Zoom link

For those that are *in between* PDS or their other legacy database system and ParishStaq, you will need to decide which system to use. You can produce your letters from PDS, like in the past, then enter new pledges, etc. into ParishStaq, or you can do the entire campaign process in ParishStaq.

More information [here](#).

We will be leveraging several tools in ParishStaq for the Treasure campaign for 2023/2024. As you can see from the workflow below, there will be a form available for parishioners to complete to enter their treasure pledge information. If you accept physical commitment cards, those can also be handled with the workflow below:

**Workflow for Processing Responses for the
23-24 Treasure Campaign in ParishStaq™**

Getting Started – Preliminary Steps

Please request the Stewardship of Treasure Form and Process from the ParishStaq Implementation Team by using this [link](#).

The team will transfer the Form template and the Process to your campus and make a local admin the Form Manager and the Process Manager.

Once the Form and Process have been transferred to your campus, you will need to edit the Form Name and set the automation in the Process Queue.
