

## March Data Cleaning Workshop

PDS users, the journey of transitioning your parish or faith community successfully to ParishStaq depends highly on clean data. Please visit our Data Cleaning pages as well as attend our March 15 Data Cleaning Workshop on Zoom at 1:30 PM.

The data cleaning process involves progressing through the videos and following the written instructions on the pages under the [Migration Planning and Data clean up at our Learning and Implementation Site](#).

## What is ParishStaq?

ParishStaq is a suite of online tools that is more than a donor database. It includes a desktop interface and two apps. One feature of the ParishStaq is interactive group management and messaging. This allows pastoral leadership and staff to facilitate deeper engagement in parish life.

## Best Practices for launch

We started a series on Best practices at our monthly "check-ins"

- General Best Practices (February)
  - General Best Practices - Giving launch (March)
  - General Best Practices - ChMS launch (April)
  - General Best Practices - App\* launch (May)
- (\*Dependent on app development)

Our next monthly check-in is March 9, 2023 at noon. Please visit our training page on the Learning and Implementation site for more information.

## Planning for Lent?

ParishStaq is a helpful tool for your ministries to:

- Invite parishioners to join Archbishop Etienne this Lent Resources [here](#).
- Send reminders about Lenten events at your parish
- Communicate to your Groups details i.e. "Fasting: Connecting to joy" or "The hard work of Lent" from Lenten encouragement. (see link above)
- Form prayer groups
- Coordinate outreach to homebound parishioners.

For any ParishStaq questions, contact us at [parishstaq.support@seattlearch.org](mailto:parishstaq.support@seattlearch.org)

## What do you know about your parish's implementation of ParishStaq?

Your Implementation Team's goal is to support parishes thoughtfully and appropriately through the implementation process. Email us with any questions! Parish Implementation Timeline ([link](#))
